

A New Paradigm for Instant Healing

©Copyright 1998 Robert C. Beck, D.S.C., USA

Disclosed here is a revolutionary do-it-yourself, safe, natural, inexpensive *proven* solution to infectious diseases based on blood electrification. It requires no doctors, drugs, or other outside intervention. It costs practically nothing. Clinical tests have confirmed these four steps can "cure" HIV (AIDS), Cancer, Hepatitis, Lupus, Epstein-Barr, Gulf War Syndrome, Giardia, Candida, and even the common cold, plus most other known infectious diseases including ones for which there are no currently successful antibiotics, vaccines, or treatments. It is offered to humanity as a no-profit, informational-only, empowerment for everyone who wishes to be healthy again. We have nothing for sale.

Unbelievable breakthrough in recent research.

HOW?

Four separate discoveries are combined in this new "cocktail" paradigm. Together they provide confirmed sweeping magic-bullet "cures" clinically tested and demonstrated to actually eliminate most "incurable" afflictions. *If you do it yourself, you have nothing to buy except parts and batteries. Most have unconscious death-wishes manifested as disbelief, aversion, resistance and "defeat the unorthodox healer." But you must take back your own power and be willing to let go of your crutches.*

What are the four easy protocols?

1. Blood Electrification . Microcurrents are known to eliminate all viruses, parasites, fungi, bacteria and pathogens in blood. Disclosed by many revolutionary patents and research over past years, these breakthroughs were lost or suppressed. The method was rediscovered by Einstein College of Medicine as an AIDS cure in 1990, then silenced.
2. Pulsed Kilogauss Magnetic Fields: Externally applied magnetic resonance of lymph, spleen, kidney & liver helps neutralize germinating, latent alien invaders and blocks re-infection. This quickens disease elimination, restores the immune system and supports detox-

ification. Permanent magnets, no matter how strong, will not nor can not scavenge pathogens with back-emf currents. You must have a sharp time-varying, not DC, magnetic impulse.

3. Silver Colloids: Pennies-per-gallon self-made perfected colloids greatly assist in eliminating all known pathogens and guard against opportunistic infections. This "second immune system" is synergistic with steps 1, 2, and 4.
4. Drinking Ozonized Water: Rapid, safe, totally natural cell oxygenation without free radical damage. Universal detoxification by oxidation of wastes, dead and neutralized pathogens, (all anaerobic) reducing all to $H_2O + CO_2$ without colonics, heat, liver and kidney flushing, herbs or other modalities. A low-cost, O_3 generator is fully described.

These four do-it-yourself tools are fully disclosed with detailed illustrated instructions for use. Utilized together and for two hours a day for about three weeks, they eliminate diseases. There is nothing to buy. No outside intervention, pharmaceuticals, herbs, enzymes or other treatments appear necessary. Some persons may need extra rest, liquids, trace minerals plus vitamins B and C during recovery. Malingerers justify avoidance by repeatedly demanding more "proof." If you show 100 cures, they'll insist on 1000, being more comfortable with peer approval than anything new.

Have these four proven cures been known previously?

Apparently, but not in combination. Related discoveries have been reported in medical journals and patents over many years. Most were lost, ignored, disbelieved or suppressed by doctors and pharmaceutical cartels because this knowledge thwarts profiteering from people's suffering. US patents on related inventions establish public domain by prior state-of-the-art (many are pre-1982). Such miracle "cures" have been independently rediscovered and proven effective many times. Lately all four combined therapies were tested. This proved to be a synergistic breakthrough - the *magic-bullet* solution to most diseases

was found and confirmed by clinical studies including numerous PCR tests plus disappearance of all symptoms.

Why haven't doctors revealed this before now?

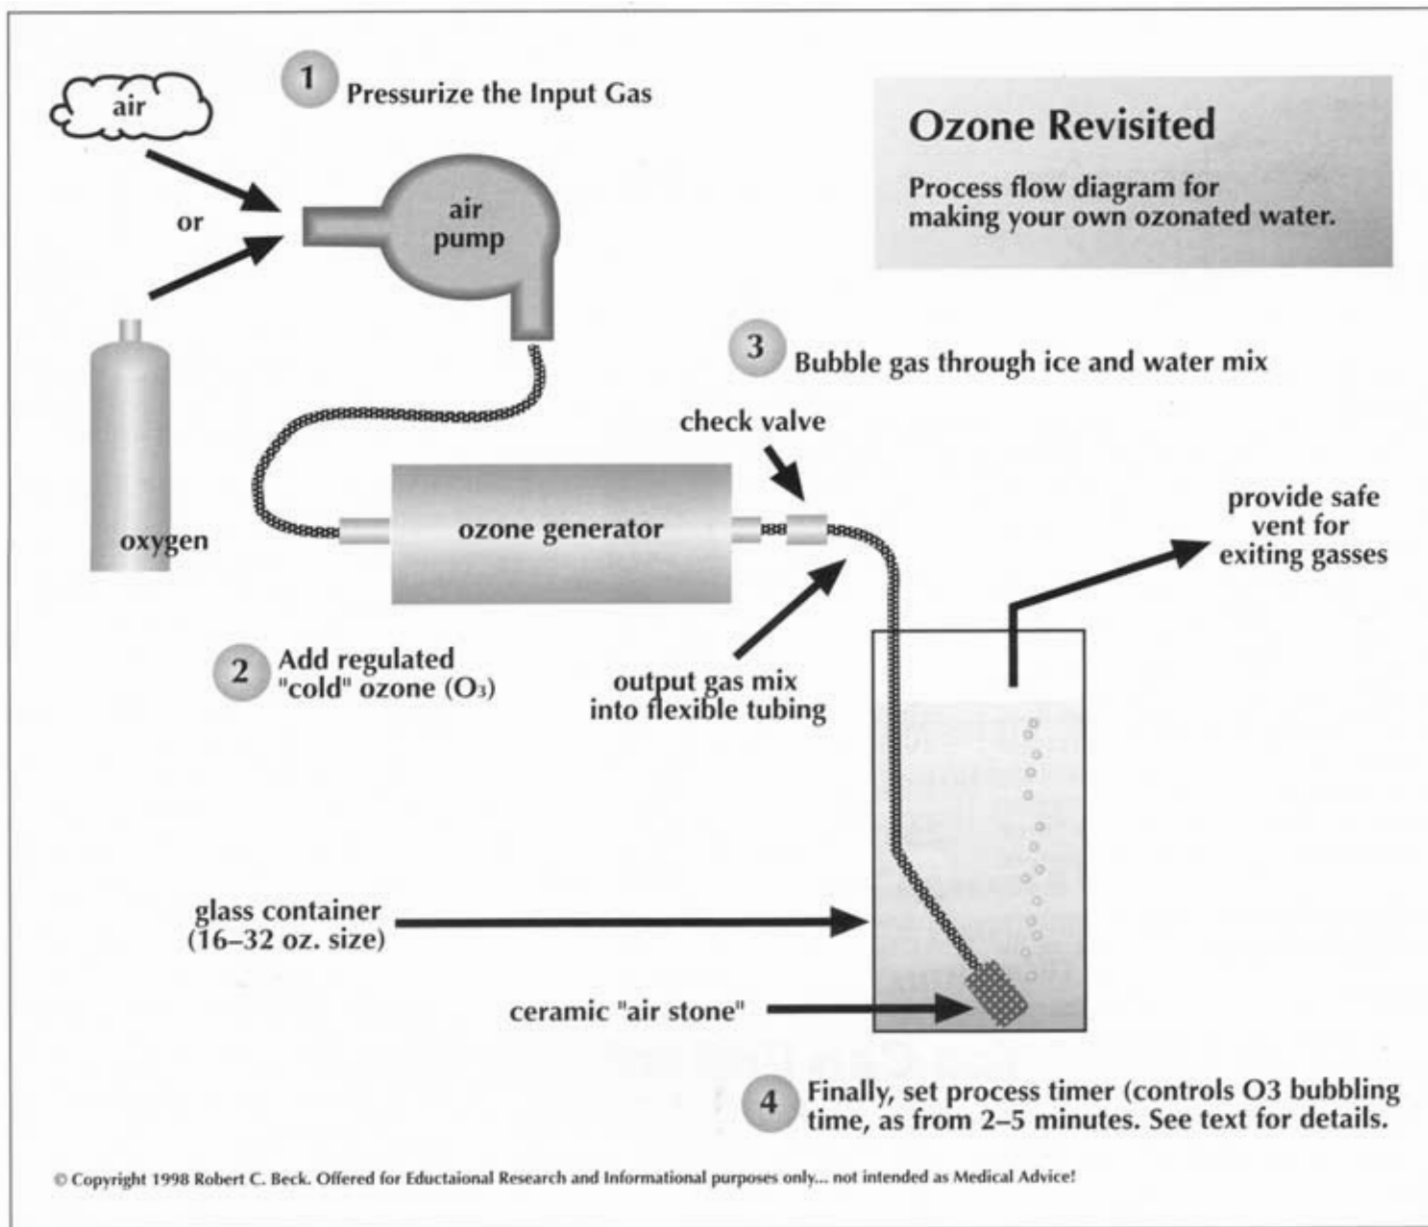

A patient cured is a medical customer lost! When actualized, these data could interrupt HMO profits; disrupt medical-pharmaceutical cartels; abort all biological warfare schemes; eliminate most drugs, medicines, debility, and early deaths; wipe out hospital and health care capital investments; minimize insurance machinations; dramatically abate sickness and suffering; plus imperil social security futures with bankruptcy; wreck sales of supplements, herbs, homeopathic and other health "remedies," machines, and practitioner's incomes. These are not politically correct.

It might permit a few ethical practitioners to keep their Hippocratic oaths by giving back the patient's sovereignty instead of serving the AMA, FDA, and drug cartels. But this would decimate their incomes.

Ozone Revisited

Recent reevaluation of ozone suggests that while it is controversial as a stand-alone therapy, O_3 when directly ingested in water simultaneously with electroporation (biphasic microcurrents in arteries) provides a truly remarkable boost to total system oxygenation, *plus natural and rapid detoxification*. Measurements show dramatic increases in blood oxygen within minutes using meters like the Nellcor AE NPB-40 "Percent Oxygen Saturation Meter"¹.

Many different "Ozonizers" sold at health expos for prices up to \$4,700 are large heavy suitcases, must plug into AC, and almost universally use vastly inferior *Ultra-Violet* systems and bottled oxygen instead of the preferred high-voltage cold-corona utilizing *air* for ozone production. Described here is a superior design *producing faster, more concentrated O_3* than other available home units. It is a very portable three-way, stand-alone system. You can choose to utilize either internal battery power, *or* car lighter powered input. It can be put together by anyone for

Note: always drink or use ozonated water within 20 minutes after making. **Caution:** do not breath in ozonated gas... (the chemical activation that gives it power to cleanse is too strong for lung tissue and can easily cause damage.

a fraction of the cost of top-of-the-line ozonizers. A second cheaper but slower do-it-yourself design using AC power only is also shown here. It uses inexpensive parts for the budget-minded but still works superbly. O_3 unlike other forms of oxygen carries *negative* electrical charges that specifically *counteract* free radical damages, scavenge crosslinking and recharge depleted cells. Ionic silver colloids also greatly assist this "rejuvenation" process by restoring free electrons.

O_3 rapidly converts (oxidizes) all known toxins and wastes long present in your body cells to H_2O and CO_2 which flush out easily and rapidly *without* utilizing colonics, lymph, spleen, liver, or kidney detoxing or any other treatments.

Building a Compact, Line-Independent AC/DC Low Cost Powerful Ozone Generator Using Air Not Requiring Expensive Bottled Oxygen

Note: Nitrogen by-products, oxides and acids produced with air and cold corona discharge have been tested and found negligible and harmless in ozonized drinking water. But hot arcing produces unwanted byproducts using air; pure oxygen does not. So to be safe start with bottled oxygen and pure water only if making O_3 intended for intermuscular injection, insufflation, direct blood infusions, or with heparin for auto-dialysis (bubbling blood in a vessel for reinjection or "autohemotherapy"). "Medical" & "industrial" (welding) oxygen are identical and come from

the same tanks at suppliers who charge more by pretending that "medical-grade" oxygen is somehow "different." Ambient air works well for drinkable O_3 . The colder and purer your water and the deeper the container for greater pressure plus the smaller the volume of H_2O being bubbled, the most ozone dissolves faster and the longer it lasts. Ideal bubblers are ~3" dia. X 2-1/2 ft. high Teflon or Polypropylene tubes with airstone at very bottom. Tall, thin plastic bottles work almost as well but their greater content takes a little longer for saturation. Nonreactive Pyrex containers are better.

To use: submerge airstone to bottom and "bubble" ~10 OZ containers of 1/2 ice + 1/2 cold tap water in a large bottle for ~25 min. Drink immediately since

1	12.6 V-1.2 Ampere-hour rechargeable lead-acid gel-cell battery (~1-1/2 hr. charge)	\$16.50
1	In-line fuse holder ²	\$2.49
1	5-8 Amp short fuses; Female spade .187, 18-22 GA battery connectors ³	\$3.15
1	Connector set, cigarette lighter male plug and female jack	\$2.50
1	12 V dc to 110V ac inverter (NOTE power brand, model #PW-50) ⁴	\$71.95
1	AC adapter to triple outlet (Drugstore)	\$2.00
1	Aquarium aerification pump (Schego Optimal 5 W 250 liter/hour membrane) ⁵	\$35.00
1	German Sander brand model 200 fish tank ozonizer, adjustable 0-200 mg O ₃ ⁶	\$389.00
1	25 ft. flexible plastic airline tubing 9" OD cat. #14507	\$3.89
1	Check Valve (prevents water from back-siphoning into ozonizer)	\$2.19

O₃ without stabilizers even in ice water has a half-life of about 20 minutes so retains full potency for only a short time. Benefits start in minutes and are far superior to many other expensive products claimed to provide "bound" oxygen (chlorites; ClO₂) or proprietary "Vitamin O" stabilized oxygen boosters. Ozone cannot be stored which is why everyone needs his own generator to make O₃ immediately before using for

the best possible results.

Never breathe ozone or ozonized air as it damages (oxidizes) lung tissue even in small quantities. ♦
